QUESTIONS FOR GUIDING INTERVENTION SET UP
Supporting Document to
The Idaho Guidelines for School-Based Suicide Intervention

To ensure that a school is ready to intervene, administrators must be able to positively affirm these questions.

1. Has the school identified and trained people who are Gatekeepers?
2. Does everyone know who the Gatekeepers are?
3. Does the entire school community understand that students at risk should not be left unattended, even
to get help?
4. Do personnel know to watch for messages in writings, art, doodles, journals, etc., or messages about
or fascination with death or suicide?
5. Do school personnel understand that it is not their responsibility to assess the seriousness of a
situation, but that suicidal behavior must be taken seriously and reported, using the school protocols?
6. Do the protocols inform staff about what to do if there is any reason to suspect a weapon is
present/readily available?
7. Have the confidentiality guidelines been provided and discussed with ALL staff?
8. Will staff receive any feedback on students whom they refer for an evaluation of suicidal risk?
9. Are procedures in place that meet staff needs in the event of a crisis?
10. Does the school have a procedure to alert staff of an emergency while school is in session and do
substitutes and volunteers know this procedure?
11. Have the school counselors, social workers, and other Gatekeepers or designees been trained in best
practice suicide intervention, including use of questions to assess the level of threat? See Student
Interview Questions link from Intervention page.
12. Has a list of local, appropriate, and assessable mental health contacts in the community been created,
have contacts been interviewed, and assessed for willingness to work with the school designees on
issues related to the student’s well-being and return to school?
13. If needed, will someone request emergency personnel, including police and/or ambulance? Who will
make the determination? (If the student has a dangerous weapon the police should be called.)
14. Do school procedures designate someone to contact the parent/guardian when suicide risk is
suspected, regardless of assessed risk level?
15. Does the school have procedures for when the parent/guardian is unreachable?
16. Does the school have procedures for when a parent refuses to get help for their child?
17. Has someone been designated to call the agency for the parents/guardians ahead of their arrival and
to follow up to see that they do arrive?
18. Does the school provide information to parents about the importance of removing lethal means?
19. Did designee request a signed release of confidentiality between the mental health agency and/or
hospital and/or doctor and parent/guardian?
20. Are there protocols concerning how to help a student re-enter school after an absence or
hospitalization for mental illness including suicidal behavior?
21. Does the school have a system to collect all documentation related to the crisis?
22. Have all involved school personnel been de-briefed and offered support if needed, and has the school
reached out to offer support to the parents/guardians?
23. Will the school, parents/guardians of the student, and mental health agency(s) that are involved put
together a plan to re-integrate the student, alert relevant staff, and decide how to help the student at
school?
24. Are there systems/teams in place to address the needs of other students who are exhibiting high risk
behaviors, especially friends and classmates of this student?
25. Will the student’s teacher(s), coaches, and other contacts be reminded of the student’s confidentiality
rights? (The student should not be made to talk about this incident with the class.)
